parkinson's australia

strategic plan 2025–2027

Our Vision

To be the national voice & advocate for the Australian Parkinson's community.

Our Purpose

To be responsive to the needs of people affected by Parkinson's through national advocacy, connection & awareness.

Our Values

Empowering
We advocate and educate for better understanding and outcomes.

Collaborative
We work with our national and international partners to benefit the Parkinson's community.

Inclusive
We actively engage with the Parkinson's community, other neurological, health and disability organisations.

Accountable
We do what we say we will do.

Empathetic
We understand everyone's Parkinson's journey is different and our work focuses on improving the lives of all people living with Parkinson's and their carers.

There are 150,000+ Australians living with Parkinson's.

Parkinson's Australia is the national voice and advocate for people living with Parkinson's, their families, carers, researchers, and health professionals.

We connect our community nationwide through online and face-to-face engagement.

We promote awareness and best practice care ensuring that people maximise their opportunities to live well with Parkinson's.

Strategic Priorities

01 Raise national awareness

We work tirelessly to amplify the voices of the Parkinson's community and advocate for improved support and recognition.

02 Connect & empower

We bring together people living with Parkinson's, families, and healthcare professionals to ensure best-practice care, support and independence.

03 Productive & mutually beneficial partnerships

We collaborate with key organisations, health professionals, and policymakers to increase understanding of the impacts of Parkinson's.

04 Well-resourced

We ensure Parkinson's Australia is well-funded, financially stable, and equipped to achieve long-term success.
